

**MATERIAL REMOVAL TOOL**

**ABRASIVE**

**We can handle it all...**

**welding,**

*Cleans up welds for painting and knocks off rust without removing viable metals from the seam.*

*Removes undercoating, slag, and oxidation.*

**marine,**

*Removes heavy barnacle buildup and 2-part epoxy base coat.*

*Removes decals, pinstripes moulding tape, adhesives, etc.*

**and many other applications!**

**Belts...**

**Product Description      Surface Preparation and Finish      Sample Applications**

**Coarse Wire Belt**  
High-performance flexible polyamide fabric, tension resistant up to 440kg with U-shaped carbon spring-steel wires, .7mm spring-steel, tips flared, heat-treated.  
68814 - 23mm width  
68910 - 11mm width\*

All ferrous metals. Highly effective on material with contours, edges, protrusions and weld seams.  
  
Leaves coarse sandblasted effect.

Removal of coating material, oxidation, paint.  
Weld preparation.  
Marine, industrial and welding application.  
  
Roughening up to 75 microns.

**Medium Wire Belt**  
High-performance flexible polyamide fabric, tension resistant up to 440kg with U-shaped carbon spring-steel wires, .53 mm spring-steel, tips flared, heat-treated.  
68911 - 23mm width  
68912 - 11mm width\*

All ferrous metals, fiberglass. Provides excellent cleaning effect, especially in edges and hard to reach areas.  
Leaves fine sandblasted effect.  
*For Hard to reach 90 degree angles - Please use the 11mm belts.*  
Removes heavy rust, oxida-

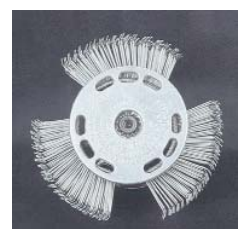

tion, paint, sealers and adhesives. Opens blisters on fiberglass surfaces created by marine exposure.  
Removes carpet adhered to fiberglass. Roughens fiberglass surfaces for adhesive.

**Fine Wire Belt**  
High-performance flexible polyamide fabric, tension resistant up to 440kg with U-shaped carbon spring-steel wires, .5 mm spring-steel, straight & heat-treated.  
68813 - 23mm width  
68913 - 11mm width\*

All ferrous metals, fiberglass. Ideal for contours, hard to reach spaces, folds and 90° angles.  
No sandblasted effect.  
*For Hard to reach 90 degree angles - Please use the 11mm belts.*

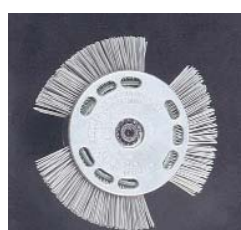

Removes paint, light rust, oxidation, gasket material, cleans welding seams, bolt threading.

**Medium Wire Belt Stainless Steel**  
High-performance flexible polyamide fabric, tension resistant up to 440kg surgical stainless steel, .5 mm wires.  
68916 - 23mm width  
68917 - 11mm width\*

All non-ferrous metals including aluminum, bronze and copper. Highly effective over rivets and contours.  
Leaves fine sandblasted effect.  
*For Hard to reach 90 degree angles - Please use the 11mm belts.*

Removes oxidation, paint, sealers. Ideal for welding preparation on non-ferrous metal. Roughens aluminum, copper, brass as a preparation for applying coatings.

**Fine Wire Belt Stainless Steel**  
High-performance nylon band fabric with U-shaped surgical stainless steel wires, .5 mm wires, straight.  
68914 - 23mm width  
68915 - 11mm width\*

All non-ferrous metals including aluminum, bronze and copper. Ideal for contours, hard to reach areas, folds and 90° angles.  
No sandblasted effect.  
*For Hard to reach 90 degree angles - Please use the 11mm belts*

Removes oxidation, paint, gasket material without surface damage. Cleans rivets on aluminum surfaces.

**Vinyl Zapper**  
Rubber component, tooth-shaped fingers.  
68815 - 30mm width

Ideal for removal of vinyl decals.  
Highly effective on metal, fiberglass, wood and plate glass surfaces, removes adhesives.  
Will not damage paint.

Removes multiple layers of decals, pinstripes, reflective vinyl, labels and double sided tape from any metal, aluminum, fiberglass, wood and glass surface.

\* For 11mm belt usage order part number 68918 Hub Set
